

Final Project for Tableau – Project Number 2

Screen Shot -

Analysis –

1. Target for February is extremely high because each Segment and Category is below target
2. Month of November & December seems to be a seasonal period hence target for December and November should be increased to Optimum.
3. Most of the products have achieved the target in 2014 & 2015.
4. Technology achieved its target all most all the time in 2014. Similarly, Furniture did great in 2015 followed by Office supplies in 2016.
5. Company's highest sales is in the Consumer segment followed by corporate and then followed by Home Office.
